SUMMARY

Motivated and dedicated education professional with an I.Com (Commerce) background, hands-on teaching experience in multiple reputable schools, and a growing career in technology and creative media. Skilled in managing classrooms, delivering clear and engaging lessons, and supporting students with patience and confidence. Alongside teaching, I work as a Frontend Developer with experience in Next.js and React.js, creating clean, user-friendly interfaces. I also create engaging 2D animations using Vyond, bringing ideas to life with creativity and visual storytelling. Known for strong communication, discipline, and the ability to build positive learning environments. Ready to contribute experience, creativity, and technical skills to a dynamic organization.
